Cenfotec University
2022 - 2024

ABOUT ME

I am a Software Engineer with knowledge in programming and software development. Passionate about problem solving and continuous self-taught learning, I have skills in programming languages such as Java, Python, JavaScript, C#, as well as knowledge in IoT technology.

WORK EXPERIENCE

I have participated in academic projects where I have worked in collaborative teams, acquiring effective communication skills and the ability to work in multidisciplinary environments.

I have also collaborated by giving workshops on microcontrollers (circuit playground express) at the Maker Faire Costa Rica
